

I wish to protest the attempt by the CBA to circumvent Indiana's "Do Not Call" list. I DO NOT CARE to receive these kinds of calls, which is why I signed up for the list to begin with. I have yet to buy any object or service from any of the organizations and/or businesses which have solicited me through the evening calls, bulk mail or "spam." Nor will I be doing so in the future. Their money and efforts are ill-spent and I do not want to receive phone solictations' "aural spam" ever again, for anything. Oh yeah, please don't bother phoning a response to my comment because I won't take that call, either.
